

KEY STAFF RESUMES

MATT JONES

Project and Business Development Manager

Matt is one of the newest employees at Crow Engineering. He is a tenacious project manager and estimator who is skilled in streamlining company operations, maintaining schedules, ensuring customer satisfaction, maximizing revenue potential, and developing future opportunities. Matt has been working in project management and as an estimator for the last six years has expertise working on complex projects that require extensive knowledge of the industry and a keen sense of detail.

At Crow Engineering, Matt consistently provides top-quality project management services to our clients. His proven success has left clients satisfied with each of his projects.
